

PREVIERO N. SRL has the primary objective to guarantee the health and safety of all its employees in all its premises, applying the highest regulatory standards all over the world.

We are committed to:

- Prevent accidents and cases of work-related illnesses by adopting a strict policy of health & safety and by providing all the employees a continuous training on health and safety issues.
- Appoint an internal prevention and protection service and an occupational physician who regularly completes an annual health surveillance plan in order to guarantee the full compliance to the regulation and to grant all the employees a continuous health surveillance to prevent work related diseases
- Manage health and safety risk in our workplace by making risk assessment regularly reviewed and by defining improvement targets
- Provide instruction and information, and adequate training, to ensure that employees are competent in their work. Every year a precise training plan focused on health & safety issues is released. Every supervisor must investigate if his employees are skilled enough to fill the role assigned or need further training
- Provide personal protective equipment (PPE) according to the latest standard
Available on the market and verify the proper use of them
- Arrange meetings with the employees on matter affecting their health and safety. Every meeting is recorded and all ideas for improvement are taken into account
- Secure the plant and provide safety equipment by adopting control measures and continuous maintenance of the plant and equipment
- Handle and use substances in a safety manner by providing training and safety data sheets
- Apply BBS procedure and near miss reporting in order to improve a risk based approach and to investigate any possible events which could cause an accident or an injury

- Implement emergency procedures, including evacuation in case of fire or other significant incident according to the incidental scenarios mentioned in the emergency plan
- Guarantee the best standards of health care during business trip through a specific insurance policy and through dedicated guidelines regarding the risk related to specific countries. Business trips in dangerous countries are not approved
